

# **New Structural Economics Workshop**

**Fall 2016**

**Time:** Friday 3:30 pm- 5:00 pm

**Location:** The Small Classroom, 1st floor of Wanzhong Building

**Organized by:** Yong Wang, Xin Wang, Jiajun Xu

## **Course Description**

The New Structural Economics (NSE) workshop is organized by the Center for NSE, which is a platform to lead internationally theoretic research in new development ideas and offer policy advice within the framework of NSE. Proposed and championed by Professor Justin Yifu Lin, NSE applies the neoclassical approach to study the determinantes of economic structure, based on the given factor endowments structure at any specific time, and its dynamic evolution. It underscores the essential roles of an effective market as well as a facilitating government in the process or economic development. This workshop is intended for all graduate students who are interested in the theory and empirical applications of NSE.

## **Course Structure**

This workshop invites economists from all around the world and all different fields to give talks on their research findings related to NSE. Both theoretical work and empirical researches are covered. In addition, we encourage students to present their own work or other interesting papers.

## **Course Requirements**

1. The workshop starts from the week of September 12.
2. The speaker is required to send papers or abstracts to all participants at least two days in advance of the presentation.
3. Grades will be based on the course attendance and class participation.
4. For questions, please email Prof. Xin Wang: [xin.wang@nsd.pku.edu.cn](mailto:xin.wang@nsd.pku.edu.cn). To get enrolled, please contact Ms. Guiying Xing [gyxing@nsd.pku.edu.cn](mailto:gyxing@nsd.pku.edu.cn) .
